SAVE WATER TO SAVE THE WORLD !

Saving water means saving generations

- Awaring of what we will hand down to our nations ! Via our future vision,
- Encouraging people to consume water carefully will
- be our mission!
- Water is a saver of nature
- Attention to your using for future!
- Together with land, gives wealth to man
- **Everything of those for human.**
- Rain gives us life and health,
- Try among all to save water
- On us depends the world's wealth
- **Stop polluting the environment !**

And for the future, it is the best treatment Volunteering in organisations Ends all kinds of pollutions; Tackling with the waste of water Helps generations how to use it wiser, Enables them to leave a world which is better. With the help of each and every conscious consumer, Our world is rich in water. Reduce pollution in the sea! Listen to advice on the browser! Disseminate the messages you see!
